We have had a wonderful start to Term 1. The first term is always a busy one and all the students have been able to settle into their classrooms quite well.

## SUBJECTS

### Maths:

We have been focusing on data, graphing, decimals and fractions. The students have been engaging in hands on investigative tasks to improve their mathematical skills.

### Reading:

The students have been learning the importance of choosing a "Just Right" Book suited to their level of reading. They are also learning to use different strategies to comprehend what they read. Our Reading Logs are going onto Google Classrooms so the students can access them at home.

### Investigations:

We are learning about Physical Sciences this term. Students will investigate and conduct hands on experiments when exploring the topic.

### Positive Climate:

We have been exploring emotions, the Zones of Regulations as well as character strengths. Students have also been participating in team building games to strengthen their relationships with peers across homegroups.

### Writing:

We are exploring narratives and persuasive texts. The students have been learning to include strong descriptive vocabulary into their writing. It has been great to see the creativity and imagination flowing during these lessons.
